

**HEDRICK ASSOCIATES:**

# WEIL-MCLAIN BOILER DAY **OCTOBER 25, 2018**

Weil-McLain will present a boiler product overview of the legendary commercial cast iron boilers and high efficiency non-condensing boilers. This presentation will include the new release of the SVF 750 and SVF 1100.

These new products include industry leading efficiency and a unique design that will redefine the Stainless-Steel Fire Tube boiler industry. There will be two high efficiency non-condensing boilers on display for all to see: A Slim Fit 750 and the new SVF 750. We will also have boiler control modules so you can see how easy it is to configure a Weil-McLain boiler.

Additionally, Weil-McLain will compare and contrast the key attributes of commercial high efficiency condensing boilers and standard efficiency water boilers. This discussion will hinge on what makes modern high efficiency boilers so much more efficient than their predecessors, and what is different from other boiler designs.

Other topics will include the true drivers of boiler efficiency, and what design factors enhance the longevity of high efficiency condensing boilers and standard efficiency boilers. Finally, Weil-McLain will review concepts pertaining to hybrid boiler plants, and the benefits of their application.

#### **Steam Trailer Demo:**

Weil-McLain has outfitted a steam boiler on a trailer with a glass front plate and glass piping headers. You will be able to see what happens inside the cast iron heat exchanger when the boiler is fired and follow the path of steam to the header and out. This demonstration will reveal what happens on a call for heat, how the boiler fires, and how steam reacts to different pressures inside the system.

**CEUs  
AVAILABLE**

 **WEIL-McLAIN**

## SESSION 01

**9am-10am:**  
Registration

+

**10am-10:45am:**  
Cast Iron Steam Boilers

+

15-Minute Break

+

**11am-11:45am:**  
High Efficiency Condensing,  
Introducing The New SVF Boiler

+

Lunch and viewing of steam  
trailer demo

## SESSION 02

**2pm-3pm**  
Registration

+

**3pm-3:45pm:**  
Cast Iron Steam Boilers

+

15-Minute Break

+

**4pm-4:45pm:**  
High Efficiency Condensing,  
Introducing The New SVF Boiler

+

Happy Hour/steam  
trailer demo

### LOCATION:

The HUB Stadium/BruHub Room  
2550 Innovation Drive  
Auburn Hills, Michigan 48326

### RSVP ONLY:

Please RSVP to attend. Click [here](#) to register. Email Jay Ries with questions ([riesj@hedrickassoc.com](mailto:riesj@hedrickassoc.com)).

## About Weil-McLain:

Weil-McLain, a division of Marley-Wylain company, is a leading North American designer and manufacturer of hydronic comfort heating systems for residential, commercial and institutional buildings since 1881. Building on a reputation of quality and innovation, we are committed to creating **Simplified Solutions for our Complex World™**.

Architects, engineers, contractors, facility managers and homeowners alike rely on us for their comfort heating needs. Installed in homes, offices, schools, restaurants, hotels and other facilities throughout North America, the Weil-McLain brand is among the most respected and often used in the building industry. Our hydronic boilers and indirect-fired water heaters integrate the latest in advanced controls and materials including cast iron, stainless steel and aluminum heat exchanger technologies. The reliability and energy efficiency of our products has helped to make us industry leaders.
